Am coming in tomorrow and hope to look at the documents at that time.

Subject: Update on the Oregon NPS package

Jenny and Jayne - I revised these documents, completed all the sections, and think this will be easier to review. I made comments on the CZARA activities and try and describe it as an ongoing process, remaining neutral. For this review I think that is adequate. Things seem to change week to week so saying little is probably best. If you are pressed for time please just look at the CZARA section

I would like to get this package finalized as soon as I can to give Dave and Dan time to read it. If you have time to get to it by mid week next week or sooner that would be great. If not let me know.
